

STARIA

Tourer 11-Seater Modern Full Option (Abyss Black Pearl)

The new STARIA

Experience the spacious STARIA Tourer for group travel and the generous cargo space of the STARIA Cargo. STARIA adapts to any lifestyle, transforming your everyday life.

Tourer Hybrid 9-Seater Modern Full Option (Abyss Black Pearl)

Exterior

Clean design and high-tech details create a futuristic atmosphere.

LED Positioning Lamp

* 11-seater models do not feature LED positioning lamps at the center front of the vehicle, in accordance with automotive safety standards for lighting equipment installation.

LED Headlamps (MFR Type)

18-inch Alloy Wheels & Tires

Tourer 11-Seater Modern Full Option (Black/Ecru Beige two-tone)

Interior

It provides a sense of stability and convenience centered around a horizontal layout.

Cluster (12.3-inch color LCD)

Passenger seat open tray

Tourer 11-Seater Modern (Black/Ecru Beige two-tone)

Tourer

Its versatile configuration adapts freely to various situations, creating practical space.

2nd-3rd row full-flat seats (9-seater)/2nd-4th row full-flat seats (11-seater)

Full-flat seats enable versatile space utilization, such as loading long luggage or creating private areas.

2nd-3rd row sliding seats (9-seater)/

2nd-4th row long sliding seats (11-seater)

The sliding function allows seats to move forward and backward, maximizing cargo space.

3rd-row cushion tip-up seats (folding, 9-seater)/

4th-row cushion tip-up seats (folding, 11-seater)

The tip-up function, where the lower seat section folds up, facilitates cargo loading.

Cargo 5-seater Modern Full Option (Ecotronic Gray Pearl)

Cargo

The Cargo 2/3-seater with ample cargo space and the Cargo 5-seater designed for passenger transport become reliable business partners.

Twin Swing Doors

The twin swing doors open easily to the left and right, allowing for convenient loading of bulky cargo.

5-Seater Seating

The interior space is designed for versatile use, accommodating both passenger transport and cargo loading.

Under-seat storage in the second row (5-seater only)

Provides ample storage space under the 2nd-row seats for various items.

Tourer Electric 11-Seater Modern Full Option (Abyss Black Pearl)

Electric

Expand your daily horizons and embrace a diverse range of lifestyles with the cutting-edge convenience of EV technology.

Tourer Electric 11-Seater Modern Full Option (Black/Ecru Beige Two-Tone)

It offers the efficiency of electric driving while on the road and the convenience of unrestricted power usage when parked.

* Tourer

* Cargo

Indoor V2L

Various electronic devices can be used inside the vehicle through the V2L function. *Tourer: Located at the bottom of the center fascia

*Cargo: Located in the luggage trim

Outdoor V2L

The V2L function allows you to use various electronic devices outside the vehicle, providing a convenient experience in a variety of outdoor settings. *Front and rear cannot be used simultaneously

Front Charging Door (Ultra-Fast/Standard, with Heated Function)/ Rear Charging Door (Standard)

With front and rear charging ports, you can charge conveniently in various environments, and the indicator lets you check the charging status at a glance.

*Front and rear charging cannot be used simultaneously

Tourer Electric 11-Seater Modern Full Option (Abyss Black Pearl)

387km / 371km Range per Charge
(Cargo 3/5-seater, combined) (Tourer 11-seater, combined)

20min 10% to 80% charging
(Based on 350kW fast charger)

160kW Max. Power

350Nm Max. Torque

※ The above battery charging time is based on our laboratory test results measured at room temperature and may vary depending on battery temperature, charging power, battery deterioration, outside temperature, etc. The above driving range is based on the standard mode based on the figures certified by the Ministry of Trade, Industry and Energy, and may vary depending on road conditions, driving method, vehicle load, maintenance status, and outside temperature. ※ When the temperature drops, such as in winter, battery performance may decrease, which may increase the actual charging time or decrease the actual driving range.

STARIA Kinder

STARIA Kinder provides a safe and convenient way for children to get to and from school.

STARIA
kinder

STARIA Kinder

STARIA Kinder is a Hyundai Motor Company certified school van brand created to keep kids safe and help them fulfill their dreams for the future.

STARIA Kinder 15-seater

STARIA Kinder

Child seat configuration(15-seater)

A seat developed exclusively to suit the physical characteristics of children, with child safety as the top priority.

Normal seat configuration(11-seater)

Synthetic leather seats, 2nd-4th row long sliding seats, 2nd-4th row full flat seats, 2nd row 6:4 split seats(reclining/folding), 3rd row independent seats(reclining/folding/with armrests), 4th row cushion tip-up seats(can be folded)

STARIA Kinder

3-point Height-adjustable Seat Belt(15-seater)

Enjoy enhanced safety with 3-point seat belts that can be adjusted up and down to fit the height of child occupants.

Seat Belt Height Adjuster(11-Seater)

The height adjuster allows the height of the seat belt to be adjusted to fit the child's body.

Seat Belt Fastening and Seating Confirmation System(15-seater)

This feature prevents injuries arising from not wearing or incorrectly fastening the seat belt and those caused by sudden starts by checking if children have fastened their seat belts and are in their seats.

- 1) Display inactivated: The display is inactivated when nobody is seated, and seat belts are not fastened
- 2) Red indicator: Lights up when seat belts are not fastened
- 3) Green indicator: Lights up when seat belts are fastened(regardless of seating)

STARIA Kinder

Electric Side-step

The side-step automatically deploys when the sliding door is opened or closed, making it more convenient and safer for children to get in and out of the vehicle.

Warning Light

When children get in and out of the vehicle, the warning lights flash brightly on the front and rear of the vehicle to encourage everyone in the vicinity to exercise caution.

※ When children are on board, seat belts must be adjusted and fastened to fit each individual passenger's body. For infants and toddlers, an appropriate child safety seat must be used at all times.

Integrated Controller

Enjoy enhanced convenience by easily adjusting warning lights and the "Vehicle Stopping" indicator.

Child On Board Alarm

This alarm allows the driver to check if all children have alighted from the vehicle. Installed on the side of the window in the rear row on the driver's side, the alarm prevents children from being left unattended in the vehicle.

Safety Bell

If the safety bell is pressed inside the vehicle while the ignition is turned OFF, the warning light blinks and the door lock is inactivated, and a message saying 'Help. There is a child in the vehicle' is sent to someone outside the vehicle. This feature is inactivated when the ignition is turned ON.

Operation Log

Helps enhance driving safety by recording and monitoring vehicle status and vehicle operation data such as sudden acceleration and braking.

STARIA Kinder

Intelligent Safety Features

Enhanced intelligent safety features ensure the safety of every child.

Safe Exit Assist

When a vehicle approaching from the rear side is detected while the vehicle is stationary, the power sliding door remains closed, and a warning is issued when any door is opened.

※ When children are on board, seat belts must be adjusted and fastened to fit each individual passenger's body. For infants and toddlers, an appropriate child safety seat must be used at all times.

※ Advanced Driver Assistance Systems are designed to assist the driver's operation; always drive with full attention.

※ Functionality may not operate smoothly or at all depending on the surrounding environment and driving conditions. Additionally, functionality may be limited due to legal restrictions related to Advanced Driver Assistance System certification. Refer to the owner's manual for details.

※ The above specification configuration varies depending on the trim, powertrain, and specifications selected directly by the vehicle purchaser based on price and preferences.

※ Images of the infotainment system screen may vary depending on updates.

STARIA Ambulance

The STARIA Ambulance is an emergency vehicle equipped with various advanced medical equipment to respond to emergency situations when transferring patients.

STARIA Ambulance Hybrid 6-seater

STARIA Ambulance

Main Stretcher (Link Type)

One emergency person can transport and load a patient.

(L) : Main Stretcher (Link Type)

(R) : Main Stretcher
(Exclusive, Main Stretcher Base Included)

Emergency Vehicle Light Controller & Amplifier

The LED emergency lighting ensures excellent visibility and durability, and it comes with an integrated amplifier for easier control.

Oxygen Tank Cylinder

The oxygen tank essential for emergency rescue operations comes as a basic feature along with enough room for additional tanks if needed.

※ The cylinder comes without content.

Stretched Seat & Storage Compartment

The stretched seat is installed to transport an additional patient if necessary. The patient compartment also has enough room to store medical equipment.

Medical Equipment Compartment

A wall-mounted storage compartment provides storage of various medical equipment and items.

Rail Lighting & Ventilator

The rail lighting provides clear visibility of patient's wounds and injuries, while the ventilator with adjustable fan speed offers comfort for patients.

Emergency Medical Personnel Seat

The 3-point safety belt ensures the safety of emergency medical personnel on board.

STARIA Ambulance

220V Inverter

The 220V inverter allows the use of 220V medical devices onboard.

Respiratory Equipment & Aspirator

Respiratory equipment and an aspirator are installed to supply oxygen for emergency patients.

Trauma Treatment/Intravenous Set

The built-in intravenous set allows prompt care on emergency trauma patients.

Auxiliary Battery & Storage Compartment

An auxiliary battery is installed in the auxiliary battery storage compartment to supply stable power when using electrical equipment.

Video Recorder

This device records video of the vicinity of the vehicle.

STARIA Special Ambulance

This STARIA Special Ambulance equipped with highly advanced equipment aids rescue operations as well as emergency medical services.

STARIA Special Ambulance Hybrid 6-seater

STARIA Special Ambulance

Main Stretcher (Exclusive, Scoop Stretcher Storage Included)

The stretcher prevents swaying when transporting patients and folding of legs when unloading. It also comes with a scoop for easier handling.

Respiratory Equipment (Fixed) & **Aspirator** (Fixed)

Respiratory equipment and an aspirator are installed to supply oxygen for emergency patients.

Emergency Medical Personnel Seat

The 3-point safety belt ensures the safety of emergency medical personnel on board.

Blood-pressure Monitor (Fixed)

Check the patient's condition thoroughly through accurate blood pressure measurement.

Patient Compartment Controller & Intercom

The installed controller controls the lighting and medical equipment in the patient compartment, while the intercom allows communication with the driver.

Video Recorder

This device records video of the vicinity of the vehicle.

STARIA Wheelchair Lift

This is a vehicle designed exclusively for the people with disabilities offering convenience to wheelchair occupants when entering the vehicle.

STARIA Wheelchair Lift 7-seater

STARIA Wheelchair Lift

Powered lift for passengers on wheelchairs
The powered lift allows easy access to the vehicle.

Wheelchair Lift Platform

The grid flooring prevents wheelchairs from slipping when entering and exiting the vehicle. And safety plates are added at the front and rear of the platform.

Wheelchair Front and Rear Securement
Wheelchair safety hooks mounted on all corners of the interior floor of the vehicle safely secure the wheelchair when boarding.

Rear Wheelchair Safety Hook

The rear wheelchair safety hooks can be detached to secure passage for the wheelchair occupant.

Tailgate Step Lighting

The tailgate boarding section is illuminated, making it convenient and safe at night or in dark places.

Wired Remote Control

The remote control allows easy and simple control of the lift.

Instructions

1. Turn on the power to the wheelchair lift, lower the lift all the way down until the platform lies flat on the ground, and load the wheelchair with the occupant.
2. Operate the controller, and the lift platform will level and rise.
3. When the lift platform rises and is level with the interior floor of the vehicle, move the wheelchair occupant into the vehicle and fasten the wheelchair safety hooks and belts.
4. Return the wheelchair lift platform to its original position and turn off the power.

STARIA Wheelchair Lift

Powered Swivel Seat

The swivel seat is controlled electrically by a wired remote control allowing the passengers with mobility disabilities easier access to the vehicle.

Powered Seat (Swiveling)

**Powered Seat Powered Swivel Seat
(Forward and Backward)**

Powered Seat (Up and Down)

Tourer Hybrid 9-Seater Modern Full Option (Ecotronic Gray Pearl)

e-Motion Drive (e-Comfort Drive + e-Dynamic Drive)

A Hybrid -exclusive system that delivers superior ride comfort and handling feel through various control technologies, including electrified motors.

• e-Comfort Drive

e-Ride Gen1

It minimizes vehicle shake when crossing speed bumps by controlling the motor, delivering a comfortable and stable ride.

• e-Dynamic Drive

e-Handling

Controls drive torque to maintain optimal tire traction during turns, enhancing cornering response and stability.

e-EHA

Maximizes evasion performance by controlling drive motors during forward obstacle encounters and driver evasive steering maneuvers.

e-Traction

Enhances vehicle grip and cornering stability during sharp cornering by controlling the motor.

Hybrid

The new STARIA Hybrid delivers superior driving performance and a more premium mobility experience through its dedicated system.

Traffic Jam Control

Utilizes navigation road information (automobile-only roads) to minimize unnecessary engine starts during repeated acceleration and deceleration in low-speed traffic jams, improving ride comfort.

Hybrid -Specific Content

Provides a smart driving experience through HYBRID-specific screens displaying fuel efficiency, energy flow, and ECO driving information.

Function

An expanded range of convenience features delivers optimal comfort for both driver and passengers.

12.3-inch navigation (BLUELINK, phone projection, Bluetooth hands-free, in-car payment, e hi-pass)

Featuring a large 12.3-inch high-resolution wide LCD screen for enhanced usability, it delivers a smart mobility experience with a customer-friendly interface and features like voice recognition.

Wireless Software Update (OTA Software Update)

When the latest software version is available for update, the system will perform a wireless software update after startup, during parking, or when the ignition is turned off, following user approval.

Built-in Cam 2 Plus

Records front and rear vehicle footage with a high-resolution camera and supports automatic recording when motion is detected during parking. Sends parking impact alerts and footage via BLUELINK and provides Built-in Cam status information.

Blind-spot View Monitor

Operating the turn signal switch displays the rear side view for that direction on the cluster.

Surround View Monitor

Provides a clear view of the vehicle's surroundings during driving or parking using high-definition cameras and digital image transmission.

Smart Power Sliding Door

When you hold the smart key and wait near the door for a certain period, the sliding door opens automatically without any additional operation.

Smart Individual Climate Control

The system detects the presence of the driver's and front passenger's seat occupants. If the front passenger seat is unoccupied, airflow is concentrated on the driver to improve energy efficiency. *Exclusive to electric models

100W USB Type C Terminal

Quickly charge various electronic devices including high-performance laptops and tablets. *Up to 100W when using the 100W charging cable provided or a cable that meets USB-IF certification standards.

※ Advanced Driver Assistance Systems are designed to assist the driver's operation; always drive with caution. ※ Functionality may not operate smoothly or at all depending on the surrounding environment and driving conditions. Additionally, functionality may be limited due to legal restrictions related to Advanced Driver Assistance System certification. Refer to the owner's manual for details. ※ The above specification configuration varies depending on the trim, powertrain, and specifications selected directly by the vehicle purchaser based on price and preferences.

※ The infotainment system screen images may vary depending on updates.

Driving

It delivers optimized driving performance with stable handling and a comfortable ride.

Crosswind Stability Control

Actively controls lane departure caused by strong crosswinds to maintain driving direction and ensure driving stability.

Rear Multi-Link Suspension

It enhances road contact, disperses impact, and minimizes vibrations transmitted to the body. This delivers a comfortable ride during everyday driving and provides stable body dynamics during sporty driving. * Cargo models feature a rear rigid axle suspension.

Steering Wheel Grip Detection

Enhances the safety of advanced driver-assistance systems. Detects grip by measuring the electrical current flowing when a hand touches the steering wheel surface *Exclusive to electric vehicles

Pedal Misapplication Safety Assist

When starting from a stop with obstacles close by in front or behind, if the driver mistakenly presses the accelerator pedal instead of the brake pedal, it mitigates collision damage by limiting acceleration and applying emergency braking. * Exclusive to electric vehicles

Hyundai SmartSense

Hyundai SmartSense protects both the driver and passengers.

※ The images below are staged for customer understanding and may include STARIA Lounge models other than the STARIA.

Forward Collision-Avoidance Assist (Vehicle/Pedestrian/Cyclist/Oncoming Vehicle at Intersection/Head-on Collision)

It warns or automatically assists with braking when there is a risk of collision with a vehicle, motorcycle, pedestrian, or bicycle rider ahead. It also automatically assists with braking when there is a risk of collision with an oncoming vehicle while turning left at an intersection or driving straight ahead.

Blind-Spot Collision Warning (Driving), Blind-Spot Collision Avoidance Assist (Forward Exit)

A warning is issued if risk of collision with a vehicle approaching from rear-side is detected while changing lanes. Additionally, assists in automatic braking when risk of collision increases with a vehicle approaching from rear-side while forward-exiting from a parallel-parked position.

Intelligent Speed Limit Assist

The front camera recognizes traffic sign information and identifies speed limit data from the navigation system. It alerts the driver if the vehicle exceeds the posted speed limit and assists in maintaining compliance with the speed limit.

※ The images below are staged for customer understanding and may include STARIA Lounge models other than the STARIA.

Navigation-Based Smart Cruise Control (Safety Zones/Curved Roads)

Assists in maintaining a safe speed according to road conditions when driving on highways and motorways. It automatically reduces speed before entering safety zones and curved sections, then returns to the original set speed after passing through these areas.

Lane Departure Prevention Assist / Lane Keeping Assist / Lane Keeping Assist 2*

If you drift out of your lane without signaling while driving at or above a certain speed, the system issues a warning and automatically assists with steering to prevent you from leaving the lane just before you cross the lane markings. When Lane Keeping Assist is activated, it helps you drive while maintaining the center of the lane.

*Lane Keeping Assist 2 is exclusive to electric models

Rear Cross-Traffic Collision Avoidance Assist

When reversing, it detects the risk of collision with vehicles approaching from the left or right, issues a warning, and if the collision risk remains high after the warning, it assists with braking.

* Exclusive to electric vehicles

※ The image above is based on the Staria Tourer LPG/Hybrid model.

※ Among the trailer packages, the maximum towing capacity of the tow hitch is 1,500 kg (when equipped with an inertia brake on the towed vehicle), the vertical load is 100 kg, and it uses a European 13-pin (ISO 11446) connector.

※ The multi-hanger is a product that comes with only the mounting structure (bracket) installed; the hangers themselves are packed inside the vehicle at the time of shipment.

※ The luggage partition table can be removed and used as an outdoor table in addition to its shelf and partition modes.

※ The maximum load capacity of the sliding cargo bed is 300 kg.

※ The sliding cargo bed is installed in 2-, 3-, and 5-seater cargo models with the same dimensions (1,380 x 1,541 mm) in 2- and 3-seater models, this creates extra space in the rear seats.

※ The vehicle protection film is applied to 7 areas of the vehicle (Front Bumper, Rear Bumper Side, Rear Bumper Upper, Door Step, Side Mirror, Door Cup, Fuel Filler Cap) for Cargo and Tourer LPG and Hybrid models.

※ The vehicle protection film is applied to 7 areas of the vehicle (Front Charging Door, Front Bumper, Rear Bumper Side, Rear Bumper Upper, Door Step, Side Mirror, Door Cup) for Cargo and Tourer Electric models. (However, 1 additional area will be applied when selecting the Rear Charging Door (Slow)).

※ The models and trims eligible for H Genuine Accessories new car options vary by product. Please refer to the price list for the current month for more details.

※ Trims not indicated as having a built-in cam installed would have the same fuel efficiency even if a built-in cam were installed.

Maintain a constant speed to drive more efficiently.

-The above fuel economy was calculated based on standard driving conditions. Actual fuel efficiency may vary depending on road conditions, driving styles, cargo weight, maintenance conditions, and outside temperatures. -Some of the photographed vehicles in this brochure depict optional features for illustrative purposes and may differ from the actual vehicles.

-The features, colors, and specifications stated in this brochure are subject to change based on improvements in the vehicle's exterior or performance. -The above engine performance data is based on the net value, which is a legal requirement applied by the Ministry of Land, Infrastructure and Transport from 1997 onwards. To produce the data, an advanced measurement method that takes into account the resistance of vehicle emissions was used. This method may generate results slightly lower than those generated by existing methods based on the gross value. -The leather upholstery partially consists of synthetic leather. -The vehicle colors printed in this brochure may differ from the actual colors. -Hyundai Motor vehicles are sold at prices uniformly applied for the same products everywhere across the country to promote fair business practices.

-Use of engine oil or fuel that is of low quality may result in damage to the vehicle. -Please refer to the owner's manual for details about new technologies and features stated in this brochure.

The images presented here are intended to inform customers and display the best models and options. The specifications described above vary by option, package, powertrain, and exterior color. For specification details by model, please refer to the monthly price table.

How to purchase an electric car

① Sign a car sales contract

- Car contract

② Apply for subsidy

- Fill out electric car subsidy application for the local government of jurisdiction
- Submit application
- Receive results

③ Car allocation, car release

- Check is made on eligibility for and amount of electric car subsidy (from local government of jurisdiction) by 10 days before car allocation
- Car will be released if there are no outstanding issues

④ Apply for payment of subsidy

- Application process for payment (wire transfer) of subsidy to the local government of jurisdiction must be completed within 10 days of the car's release
- Once subsidy is confirmed to have been wire-transferred to Hyundai Motor, subsidy amount is subtracted from price that needs to be paid by customer

Service Map

Tip Anyone who has a driver's license and is at least 21 years old can apply for a test drive.

The driver is required to carry a presentable license in person to apply for the test drive.

Use the Hyundai EV card when purchasing a new vehicle to earn additional Bluemembers points.

(Refer to the Hyundai Card website for details)

Bluemembers partner companies offer diverse mobility and lifestyle/charging benefits. Don't miss out!

※ Holders of (previously issued) Bluemembers partner credit cards will continue to receive both

M points and Bluemembers points.

Before Service on Wheels is available only by individuals who own (or have accumulated in one place) at least 20 Hyundai vehicles.

2026 EV EveryCare

From purchase to ownership, we provide assistance in each phase of the electric car lifecycle to make sure your investment is worthwhile.

When purchasing

Benefit 1. EV Purchase Benefits (Choose 1)

Choose one of the two selections below that best fits your lifestyle

① 200,000 won in charging credits free of charge

- Recommended for customers living in apartment complexes and using shared chargers

② Home Charger Installation Support

- Recommended for customers living in single-family homes with a dedicated parking space (installation fees and KEPCO deposit not included)

※ Eligible Customers: Blue Members who have taken delivery of a STARIA Electric

- Corporate employees and employees of companies using rental/leasing services must register the actual driver (contact a Hyundai Motor branch or dealership)

- Benefits are not available to used car buyers

(including customers taking over a lease or rental contract)

※ How to Apply: My Hyundai App > Services > EV Purchase Benefits

※ Application Period: Within 2 months of the vehicle delivery

Benefit 2. Blue Peace of Mind Check

Blue Peace of Mind checkup, once a year for 10 years

※ Eligibility: STARIA Electric factory customers

Benefit 3. Replacement with new vehicle

Minimize the customer's financial damage and eliminate concern about car lease in the event of a car accident. If a total loss occurs within two year of the car's release, funding is provided for the purchase of a new vehicle

Benefit 4. EV charging solutions

We offer a wide range of charging solutions, including on-site charging, as well as charging solutions

Benefit 5. Electric Vehicle Fire Safety Program

Assistance with livelihood and property damage expenses in the event of a thirdparty loss due to an electric vehicle fire

※ Eligibility: STARIA Electric factory customers
